## COTTON SPINNERS OUT.

Fifty-Three Thousand of the English Workmen Quit Work.

ANARCHIST MEUNIER CONFESSES.

He Writes That He Blew Up Very's Restaurant With Dynamite.

THINGS ABOUT WHICH EUROPE TALKS

LONDON, Nov. 7 .- The lockout in the cotton trade began at the usual midday closing hour on Saturday. The exact number of operatives affected will only be known to-day. Mr. Mawpley, Secretary of the Amalgamated Association of Operative Cotton Spinners, thinks that 53,000 persons will be rendered idle by the lockout or strike, the trouble partaking of both features. His estimate, however, may be modified should the stampede among the employers spread.

The Federation of Master Cotton Spinners has never been very successful in its lockouts, and the present trouble promises to be no exception to the rule. Since the masters issued their notice that the spinners would have to submit to a five per cent reduction in their wages, there has been a considerable improvement in the cotton trade, and manufacturers are loth to shut their mills and forego the profits in sight. Should the manufacturers spinning American cotton offer their employes the old rate of wages, it is highly probable that about 15,000,000 spindles would continue to run, and the number of idle spinners and others would be reduced to 30,000. At any rate, a victory for the operatives is practically a victory for the operatives is practically a certainty. Only one mill in Heywood closed to-day.

With so many mills running the position

of the strikers and the lockedout operatives is materially strengthened. The spinners at work pay a small proportion of their wages into the strike fund which is already very large, and this will allow the operatives to stay out for a long time. Each manufacturer belonging to the Musters Federation pays a fine of one farthing for each spindle he runs during a lockout, but it is evident that on the present occa-sion many of them can pay the wages de-manded by the spinners and still run their mills at a satisfactory profit. If this were not the case the mills would be closed.

### MEUNIER CONFESSES.

He Says He Blew Up Very's Restaurant Instead of Annrchist Francois.

PARIS Nov. 7 .- The Gil Blas to-day publishes a letter from the Anarchist Meunier. who was supposed to be in England, declaring that Francois, who was arrested a short time ago for blowing up the restaurant of M. Very in the Rue Magenta in April last, had nothing whatever to do with the dynamite outrage. M. Meunier says that he himself caused the explosion and if Francois, proceedings for whose extradition are now pending in London, is arraigned in Paris, he (Meunier) will surrender himself to the authorities. Both Meunier and Francois were suspected of causing the explosion at Very's resinurant, and were arrested. The police, however, concluded that they were innocent, and released them. Both men disappeared, and shortly afterward the authorities became convinced that they had made a serious mistake in setting them at liberty, as evidence came to light that both of them were implicated in the outrage. Very's restaurant, it will be recalled, was

blown up on the evening of the trial in Parls of the notorious Ravachol, the object of the Anarchists being to frighten the jurors in the Ravachol case. They apparently succeeded by this and other means in intimidating the jurymen, for the latter, in spite of the evidence showing that Ravachol was the author of several of the dynamite explosions that caused such excitement and fear in Paris and his confession that he was manslaughter only. He was sentenced to life imprisonment, but subsequently the Government placed him on trial at Monthrisson on the charge of murdering an old man for the purpose of robbery. This time he was convicted of murder, and subsequently he paid the penalty of his crime on the guillotine. Since that time the blatant Anarchists of Paris have kept themselves comparatively quiet.

## SPANISH ELECTION RIOTS.

Several Reported to Have Been Killed in a Free-for-All Fight.

LISBON, Nov. 7 .- A serious election riot occurred yesterday at Povoa de Varzim, in the Province of Druro, in which it is reported several persons were killed. The population of the town is about 10,000, and among the residents are many fishermen. Municipal officers were elected yesterday, and party feeling ran very high. A num-ber of fishermen became engaged in a dis-pute with some laborers regarding the merits of different candidates, and from words they soon passed to blows.

Both sides were reinforced by men from their respective occupations and the fight was waging without much advantage to either side when one of the combatants drew a knife and stabbed his opponent. Instantly other knives were drawn and used. Those who did not have knives seized stones and hurled them into the mass of struggling men, in their excitement not caring whether they hit a friend or enemy. A large number of fighters were seriously A large number of numbers were seriously wounded, being stabbed, while others were injured by being hit with stones. It is said that five or six men were stabbed, but this report has not yet been verified. The police acted as promptly as possible, but when they arrived at the scene of the fighting the crowd, having warning of their coming, had disappeared, taking the wounded and the dead, if there were any of the latter, with them. The authorities are investigating into the affair.

## LANDLORDS WALK OUT.

They Refuse to Remain at the Evicted Ten-

ants' Commission DUBLIN, Nov. 7. - The Evicted Tenants' Commission opened its inquiry here to-day. Justice Mathew, President of the Commis sion, stated that he had received a letter from the Marquis of Clanricarde, in which from the Marquis of Cianricarde, in which he referred to the commission as a "plan of campaign commission," and declined to at-tend as a witness for the purpose of making suggestions for an attack on his class. When one witness was testifying Dr. Car-son, counsel for the landlords, asked to be

allowed to at once cross-examine him, Justice Mathew refused to grant the desired permission, saying that when the witnesses for both sides had been heard counsel would be allowed to cross-examine them through the commissioner. Mr. arson thereupon declared that the whole thing was a farce and a sham, and that he would not prosti-tute his position of advocate by remaining longer before the commission. Justice Mathew said that Mr. Carson's observations were disgraceful. The other counsel, pres-ent as representatives of landlords, con-curred in the remarks made by Mr. Carson and withdrew from the room. The laudlords being thus unrepresented, Justice Mathew adjourned the session of the com-

Theodore Child Reported Dead. LONDON, Nov. 7 .- A special dispatch to the Times from Teheran, Persia, says it is reported that Mr. Child, of the Harper's publishing house in New York, has died from cholera at Ispahan. Mr. Child was making a tour of the East.

Dumas Removes From Paris. PARIS, Nov. 7 .- M. Alexandre Dumas he distinguished novelist and dramatic

author, was born in Paris and lived all hi s author, was born in Paris and lived all his life in this city, who has sold his house in the Avenue Villiers, which cost him 20,000 francs, 20 years ago, to M. Dreyfus, a member of the Chamber of Deputies, for 450,000 francs. M. Dumas will go to reside at a fine place in the forest of Marly, which he inherited from his father's friend, M. de Ribbing.

## MUST ARM TO THE TEETH.

The Dreibund Said to Be Very Unsatisfactory to Germany.

NEW YORK, Nov. 7.-The Herald's Berlin correspondent cables as follows: The same high political authority whose opinions on the army bill I cabled you yesterday gave me another interview to-day. Speaking of the measure in its international bearings he said: "The arm bill proves directly that we can no longer trust our We are required to arm to the teeth, as though war were imminent. It is no wonder that the French and Russian press now treats the Dreibund so lightly. "At the outset it was hoped that the Dreibund had lessened the burdens of the

Breibund had lessened the burdens of the allies. It has, in practice, had the opposite result. Devised as a barrier against the aggressions of France and Russia, it was hoped it would favor a peaceful and economical development of the central powers. What has it really done? It has laid new and crushing charges on the three allies and forced them to the very brink of ruin. In order to relieve Austria and Italy of finan-cial embarrassment and to enable them to strengthen their armies we have made important commercial concessions to both. We gave much, but we got nothing in re-turn. The duty of the Government is clear. They must adopt a firm, bold, manly and consistent policy. It our allies give us no support, of what use are they? We should do wisely to seek other ailies, stronger, if possible—at all events more loyal. The day for hesitation has gone by, the day for vig orous action has come."

A Decrease in English Trade. LONDON, Nov. 7 .- The returns issued b the Board of Trade show that the impor decreased 2,150,000 pounds and the expor decreased 3,440,000 pounds during Octobe as compared with those for the correspon ing month last year.

A Channel Boat Reported Ashore, LONDON, Nov. 7.—The channel bo-which connects with the club trains ru ning between Loudon and Dover and between Calais and Paris is reported ashor near Calais. A thick fog prevails.

## SKIPPED THEIR BOARD BILL

A Theatrical Company Leaves a Trustin Landlord in the Lurch.

BEDFORD, PA., Nov. 7 .- [Special.]tremendous sensation was caused here t night by a row that broke up a theatrica company and involved a show of deadl weapons, an escape from a hotel, etc. I man named Henderson, said to hail from Allegheny, has been here several month organizing a theatrical company and he empleted arrangements to "go on the road" next Saturday.

For a starter the company gave two nights here, to empty houses. Then the proprietor of the Corle House, J. O. Smith, attached the baggage of Henderson and his wife for a hotel bill. Henderson produced firearms and announced his purpose to kill the landlord, saying he had shot one hotel-keeper for being "too fly" and he thought it was time to kill another one. Smith was alarmed and hurried after warrants for the man's arrest. Before an officer could be found to serve them, the Hendersons had packed the best of their traps into the smallest possible compas, threw the grips and trunk out of a window and followed them, getting clean away before their flight was discovered. A hot pursuit was in-augurated, and is still on.

The Dispatch's electric election bulletins will be flashed every 15 seconds from The Dispatch building this evening.

## HIS LAST SPEECH MADE.

ia Campaign Orator Nearly Drop Dead at a Meeting.

BRAZIL, IND., Nov. 7 .- Robert Hinton. colored, of Indianapolis, died here this morning at 9 o'clock of a congestive chill. His death caused considerable excitement in the city. He was billed to make the last Republican speech of the campaign here last night, and arrived in the city apparently in good health and repaired to the wigwam, where a large audience had con-

gregated.

After being introduced he spoke a few words, fell, and was carried unconscious to the Hendricks Hotel, where he died this morning. Mr. Hinton was a member o the Legislature in 1890.

A Robber for a Bridegroom. INDIANAPOLIS, IND., Nov. 7 .- At Matinsville to-day, William Russell was arrested for robbery. When taken into custody, Russell had a marriage license which authorized his marriage to Miss Laura Hawkins, the wedding having been fixed

## CANADIANS LOSE ON CATTLE.

Government Order Takes the Domin ion Exporters Unawares.

OTTAWA, ONT., Nov. 7 .- The cattle cheduling order issued by the Imperial Government has taken some of the exporters unawares. Those who have shipments now en route will doubtless be able to land their cargoes by the 21st, the date on which the new order takes effect, but with regard to those animals which were to be dispatched this week it is not likely that they could arrive in Great Britain before the new order goes into operation. Hence they would be slaughtered immediately on landing.

On fat cattle so disposed of there would be, of course, some losses, but on "stock-ers" a total loss would follow, as until fat-tened they are worthless for beef purposes, Several avocations. Several exporters have some hundred of "stockers" yet unshipped, and to enable them to dispose of the animals on hand the Imperial Government is being urged to allow shipments to leave Canada under the old order until the 21st instant.

## BRAZIL WANTS THE CHINESE.

That Government Passes an Act Encourag-

ing Their Immigration. WASHINGTON, Nov. 7 .- Just at this time when the United States is embarrassed by the necessity of keeping Chinese laborers out of the country, it is a rather fortunate occurrence for the Chinese that the Brazilian Government, according to a dispatch sent to the State Department by United States Minister Conger, has just passed an act for the encouragement of Chinese immigration. The Minister writes that it is expected that the new act will induce a considerable immigration.
